

Environmental Policy

- Fujitsu Ten Australia Pty Ltd shall plan, establish, document, implement, maintain and continually improve policies, procedures and practices that meet the requirements of a certified Environmental Management System (EMS) to ISO14001.
- We are committed to complying with current applicable environmental legal requirements and other requirements to which we subscribe.
- We shall aim at preventing and reducing the environmental impacts on air, land, water, flora, fauna, property and noise.
- In conjunction with our parent company, customers, suppliers and interested parties we shall investigate ways to reduce the impact on the environment.
- We shall establish, implement, maintain and monitor the company environmental performance through our objectives, measures and targets.
- Wherever reasonably practicable &/or economical we shall reduce, reuse and recycle packaging and wastes.
- We shall make this environmental policy available to our employees and public on the company website.
